

Compliance Surveys

Our reliable, validated healthcare compliance surveys measure employees' understanding of your compliance program, assess perceptions of the compliance culture, measure progress, and benchmark your results against other similar organizations.

Who We Are

Compliance Resource Center has been leading the compliance industry since 2010 with our complete suite of solutions that are geared towards improving Compliance Program operations. Our suite of solutions ensures that organizations regularly meet federal and state laws and supplies the necessary resources to sustain long-term compliance.

Compliance Knowledge Survey

30-question dichotomous Knowledge Survey that measures your employees' understanding of the Compliance Program, including its technical functions and purpose within your organization.

Compliance Culture Survey

40-question Likert-based Culture Survey that assesses how employees feel about their role as it relates to compliance with rules, regulations, and the organization's Code of Conduct.

Ensuring Program Effectiveness

You receive a certified report with our survey methodology, useful visualizations of your results data, and our recommendations on how to best utilize the results to make your Program as successful as possible.

Benchmarking Your Results

We benchmark all results against the "collective universe" of organizations who have used the same survey to compare where your Compliance Program stands, and to highlight how you can improve your operations.
