

# Compliance Trainings

Our specialized online training programs offer an easy and effective approach to comprehensive training on a variety of compliance-related areas. We designed our material to be a convenient and flexible solution for all organizations.

## Who We Are

Compliance Resource Center has been leading the compliance industry since 2010 with our complete suite of solutions that are geared towards improving Compliance Program operations. Our suite of solutions ensures that organizations regularly meet federal and state laws and supplies the necessary resources to sustain long-term compliance.

### Comprehensive PowerPoint Presentations

Our detailed PowerPoint covers training on compliance with general healthcare laws and regulations, and we add training on organization-specific Codes of Conduct and relevant policies and procedures.

### Interactive Online Features

We include quiz questions throughout the training that reinforce the main points of the module, and we developed a built-in reporting feature that allows you to track your employees' progress.

### Personalized Service & Support

We customize the training slides to meet your compliance needs, give you the option to create your own quiz questions for us to incorporate into our training platform, and offer client-related updates each service year.

### Ensuring Program Effectiveness

Our training promotes a widespread understanding of your Compliance Program, Code of Conduct, and additional high-risk areas and highlights how and where you may need to improve your Program in the future.
